

**MEDICAL CHANGES FOR '08-'09:** In recent years, the State of Illinois has required a new physical examination before entrance to Kindergarten and fifth grade, and during any year when a student participates in a sport. A new state law has changed the requirement from fifth grade to sixth grade. State-required physical examination forms will be included with the third quarter report cards to be distributed on April 11.

Here's a quick reference for what's required this year:
